Peace Public School

Senior Secondary

Affiliated to CBSE, New Delhi, Code No. 1630424

Ferozepur Road, P.O. Bhanohar, Ludhiana-141 102

Flower in Goodness

PEACE

Personal success through
Empowerment
Academic Achievement
Conflict Resolution
Ethics in action

PROSPECTUS

MISSION

Helping the students to be mature and free,
to flower greatly in love and goodness.

VISION

Peace Public School is an effort to create an atmosphere where ;

"Children would drink in learning
because they are thirsty for learning;
children are always thirsty for learning."
– Pearl S. Buck

Let the children tread on the vast spread of nature: grow like a flower, fly along with the birds, float along with the clouds, rise into the unknown, while responding to the global calls of technical advancement in a joyful manner. Their natural urge to know and probe is to be boosted rather than to be suppressed. It is possible only through loving attitude and parental concern. 'Peace' is suggestive of leading a life with all its beauty and joy. It will be school's endeavour to create suitable environments and provide with infrastructure to meet the desired goal. The school is committed to shape the students into courageous and confident individuals, filled with love and compassion.

Sagar C. Jain
Chairman

"The highest function of education is to bring about an integrated individual who is capable of dealing with life as a whole."

TRANSCENDING BOUNDARIES

The school is a member of PEACE Academy, an International community that promotes students to succeed through an integrated curriculum and real world experiences.

PEACE students will focus on :-

Civic Virtue
Citizenship
Respect
Responsibility
Trustworthiness and
Caring
(Six Elements of Character)

The school is associated with **ELEVATE** (Enriched Learning Experience via Applied Technology Education) a collaborative, technology-based programme that blends global studies, environmental science and ethics together in order to engage students in an enriched curriculum. Students understand that the personal, social and ethical decisions and actions they take now will effect their communities. They utilize technology to access resources that enhance learning and stimulate application of learning experience to real world contexts.

"Education should help us to discover lasting universal values so that we do not merely cling to formulas or repeated slogans."

Inter Exchange
PROGRAMME

Students, from time to time, will be sent abroad and the foreign students will be invited to work together to be a part of global village. They will be encouraged to absorb and assimilate whatever positive and useful available anywhere. Likewise, same arrangement will be made for teachers so that they may exchange their experiences and innovative ideas.

The school is proud of creating the appropriate infra-structure to meet the challenges.

Mother's Care,
Father's Concern

Child's FLOWERING

Teachers of our school are highly motivated, highly qualified and experienced, adaptable to technology, and quite creative and innovative. They are, regularly, involved in workshops and seminars to keep abreast of the latest developments in their field.

Parents' participation is an essential feature of this school as, we believe, the real growth of the child is the result of collective effort. There should be harmonious blend of school's and home's effort for accomplishing child's flowering.

Parents are required to attend 'Parents-Orientation' programmes. They are offered to associate themselves with the school administration and teachers to devise useful programmes for the students. Under a specific programme, parents are initiated to observe the class working and put forward positive suggestions. Parents skilled in sports are facilitated to coach and play with school students. Any constructive plan of the parents is implemented in co-ordination with the school administration.

"In our relationship with children, we have to have great understanding, the strength of patience and love."

VIBRANT CAMPUS

The school campus has been designed to create a blend of natural beauty and the vibrant spirit of the students. It has separate buildings and exclusive facilities for different age groups : Junior Wing and Senior Wing. In this way the students enjoy their independence in their own age groups without any sense of fear. The school is committed to provide maximum facilities in all fields: academic, sports and cultural. Various clubs and houses streamline all the activities.

The school will not hesitate to tap new avenues and in accepting any kind of challenge to meet the best international standards.

> *"To taste **elixir** is to breathe in clean and spirited atmosphere."*

Aspirations for Excellence

Peace Public School
